

# KingLT(S)-D™

supraglottic airway

King LTS-D shown

## Simple. Disposable. Gastric Access.

The King LT(S)-D laryngeal tube is a disposable, simple to use alternative airway device that provides superior patient ventilation. The King LTS-D additionally allows the passage of an 18 Fr gastric tube through a separate channel.

### Simple.

- Seals in the esophagus and oropharynx to provide positive pressure ventilation.
- Single inflation port.
- Color-coded full range of sizes.
- Suction port.\*

### Disposable.

- No risk of cross-contamination.

### Gastric Access.

- Suction with up to an 18 Fr suction catheter.\*

\*King LTS-D only.
