

AllFLOW™ Filters provide variety, ease-of-use and affordability. Available with round or **oval** patient side mouth ends

Introducing
AllFLOW™ Oval

AllFLOW™ filters meet or exceed the highest standards in PFT filtering with minimal resistance and low dead space.

Our Port Color Variety (PCV)™ reduces contamination risk with filter mounting. The distinguishable color provides correct connection with equipment the first time. Quality spirometry and lung function tests are accurately obtained with 8 individual port sizes.

The AllFLOW™ filter medium traps bacteria and viruses efficiently with electrostatic properties.

- Low Resistance
- Minimal Dead Space
- Unique filter design accommodates Small Mouth Adapter for adults and children without compromising filter function
- 99.99% bacterial and viral filtration
- 8 standard port sizes defined by color designed to fit a wide selection of equipment.
- Filters exceed ATS guidelines for all criteria
