to Chance

GENUINE
VICTOR®
APPARATUS

A THERMADYNE® Company

Insist On The

Patented Protection In Cutting Torches

Built-in Reverse Flow Check Valve
For added operator safety
(U.S. Patent #4286620)

Built-in FlashBack Arrestors
For added safety
(U.S. Patent #5407348)

Your Partner For The New Millennium

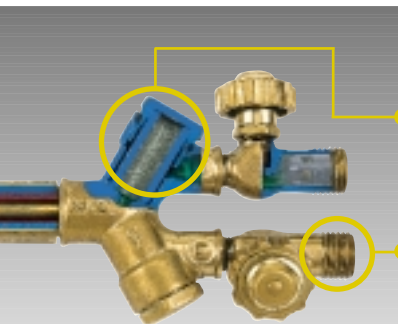

2000

uard Safety System!

Victor is committed to operator safety. That's why we put our patented "built-in" flashback arrestors and reverse flow check valves in every new cutting torch and torch handle we make. With Victor's exclusive VanGuard™ safety system, operators can be assured of optimum protection every time they light up their torch. Why settle for anything less?

Patented Protection
For Torch Handles

Built-in FlashBack
Arrestors

For added safety
(U.S. Patent #5407348)

Built-in Reverse
Flow Check Valve

For added operator safety
(U.S. Patent #4286620)

The choice is yours...

Regardless of the Victor apparatus you buy, now you'll always have "Vanguard" protection because the torch handle or cutting torch in every Victor outfit you buy now includes our patented built-in safety system. From the industry pacesetter, Journeyman, to the popular Super-Range, to the versatile Contractor and Cutter kits, now they're all equipped with Victor's flashback protection and built-in reverse flow. Call your "Genuine Victor" distributor today for more details.
