

BEST

The Vision® is a lightweight, full-coverage helmet in a sleek, modern design. Front and rear cover plates can be changed in a matter of seconds with our unique patent-pending systems.

The Vision® comes equipped with our Comfa-Gear® headgear, the only ultra-soft headband that follows the same angle as your forehead. Headband adjusts forward/back, up/down, and side-to-side.

All Vision® Auto-Darkening filters are ANSI and CSA approved.

Choose advanced electronics of our *Digital Darkening Filters, in three sizes, medium, large and Xtreme®. With clear color technology light state of 3 allows you to see amazing color. Filter options include TIG to 5 amps, grinding functions, internal LCD display depicting shade, sensitivity and delay settings, all water and dust resistant. Finally, if you want the best, most advanced technology on the planet, our all new iDF® (Intelligent Darkening Filter) with Xtreme® size viewing area is right for you. The iDF® has two modes of operation: auto-variable welding with eight memory settings and special iTIG mode with high-low memory settings.

* See page 25 for more details on these new products

Replaces X540V

PLEASE NOTE: INCLUDES AA BATTERY
