AUTOMATED COMPARTMENTALIZED CONTROL

This versatile storage solution delivers both automation and control in effectively managing the internal distribution of any type of high-use consumable and durable inventory. With the MultiStore, you can create an easily accessible storage cabinet stocked with all the mission-critical inventory required to operate at peak efficiency. The MultiStore includes 24 roomy individual lockers with configurable shelves for easy on-site expansion to store larger items.
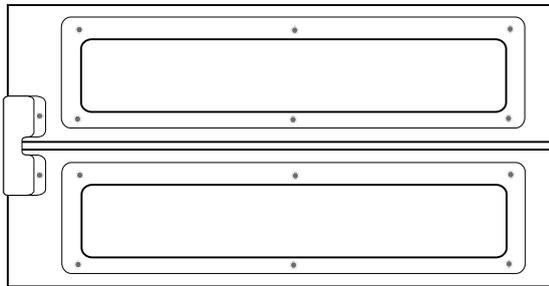

- Control consumption of high-use items
- Enhanced visibility with see-through doors and white shelves
- Comprehensive tracking and usage data for effective inventory management
- House multiple SKUs within each locker

MultiStore
Configurations

The MultiStore locker solution is available in a 24-door model. The MultiStore is field-configurable by simply linking the doors of each of locker together and removing shelves. This allows the capability to lock multiple doors at once. The MultiStore can function as a main or auxiliary unit.

Linked Locker Dimensions			
Locker	1	2	3
Height (in)	5.375	11.5625	17.75
Each locker width is 25.84 in and depth is 28.25 in Optional locker combinations are available Maximum shelf capacity 90 lbs			

Locker doors are linked by overlapping brackets

Accessories
- Accessible power strip with 24 outlets allowing for a charging station within a MultiStore

MultiStore
Issue Process

As in all CribMaster storage devices, the issuing and returning process of the MultiStore is simple.

1. Authenticate: The user self-authenticates with an employee badge or other optional login methods and enters user-defined cost centers if required.

2. Select: Through the touchscreen interface, the user selects the item from the item image screen or item description displayed.

3. Issue: After selecting the issue function, the locker door opens, the user removes the item, and the database is automatically adjusted.

4. Record: The software records the transaction and the database is updated.

Software
Functions

CribMaster Software
